EDITION 28
New Lighting Collection

CHELSOM.CO.UK

**1. Alisse Keypad
Lutron**

Lutron presented two new control solutions at Decorex, including the Palladiom Wire-Free shade system, and the Alisse Keypad. The keypad is an elegant and versatile wall control panel that is designed to function in tandem with Lutron HomeWorks. The sleek architectural design, innovative technical approach and customisable controls make Alisse a seamless addition to any room. www.lutron.com

**2. HOME by Chelsom
Chelsom**

Chelsom debuted its exciting new brand, HOME by Chelsom, to the industry at Decorex as it celebrated its 75th anniversary. Chelsom now has a team entirely dedicated to servicing high-end residential customers and projects. www.chelsom.co.uk

**3. Calters
Elstead Lighting**

Elstead Lighting presented Calters from the Quintiesse Collection. Designed by Kichler, the range features a modern tapered lantern in a champagne gold finish. The concealed, dimmable LED strips illuminate clear acrylic light-guide panels featuring a dotted pattern. Featured is the QN-CALTERS-P-L-CG with 72.3W integrated LED, 3000K colour temperature and a strong 4461lm output. www.elsteadlighting.com

**4. Crest & Cascade
Curiousa**

Careful precision and detail have been required to piece together each of these pendant lights, keeping an organic feel with a beautifully modern approach. Each glass part is free-blown in the UK, which complements a locally turned wooden disc. Solid brass end-caps punctuate a spiral of LEDs within a diffused tubular suspension, creating a beam of light that glows through linear stacked glass pieces. www.curiousa.co.uk

**5. Alma
Original BTC**

Introducing Alma, a collaboration between Original BTC Director Charlie Bowles and Interior Designer Beata Heuman, combining the lighting brand's best-of-British approach and ethos with Heuman's inimitable eye for design and detail. Launched last September, the four-piece collection evolved from Heuman's first design, the go-anywhere table light, with its angleable, slightly oversized shade, brass arm and retro-style dimmer. www.originalbtc.com

**6. Reed
Tom Kirk**

Inspired by slender, natural forms, the Reed wall lights are designed to deliver soft accents to an interior lighting scheme. Used in conjunction with the Reed portable luminaires, their versatility combines with a unique aesthetic. Precision-engineered in aluminium and brass, the lights are available in a wide selection of electroplated and powder-coated finishes. www.tomkirk.com

Ana Bridgewater is a designer and sculptor specialising in sustainable decorative lighting. With years of experience working with porcelain, Bridgewater combines traditional craftsmanship, inspired by nature. Her designs utilise repurposed hardwood and ceramics, showcasing her commitment to sustainable materials and prioritising local materials. She creates long-lasting designs with minimal waste.
