# Beautifully Stunning

## Chelsom create bespoke centrepiece for Cannizaro House.

The oldest hotel in Wimbledon, South West London, Cannizaro House has recently undergone a £3 million pound renovation to restore this hotel to its former grandeur as one of the most glamorous hotels which has previously played host to Oscar Wilde, Henry James and Lord Tennyson to name just a few.

The Orangerie restaurant overlooking the stunning Cannizaro Park was the final stage in the renovation programme. It was Chelsom who were commissioned to create a unique lighting feature for this project. STS Design's team created a beautiful and contemporary interior scheme which compliments the original hotel building perfectly. Chelsom worked very closely with them to ensure that the lighting enhanced the overall design aesthetic.

They now have a spectacular centrepiece. This chandelier is without doubt the focal point of The Orangerie restaurant. It features a cascading sculpture with more than 200 clear glass balls. This is offset with a single sphere of lime green mouth-blown

glass designed to coordinate with the wider interior scheme. The chrome ceiling plate allows easy access to the transformers. The feature is illuminated by 35 watt Britespot lamps which are built into the metal framework. This is complemented by the natural light of the restaurant and is designed to be as energy efficient as possible and provides a long life solution and reduces maintenance.
