

Sleep + Eat Preview

November 20-21 2018, London, UK

Sleeper Bar 2018

Exploring colour, texture and nature

In the wake of several award-winning Sleeper Bars created by international design practices, the Sleeper Bar at this year's Sleep + Eat event will explore colour, texture and nature. In a collaboration between Brooklyn-based CRÈME / Jun Aizaki Architecture & Design and British bespoke lighting company, Cameron Design House, the design will explore traditional natural wood dying processes and celebrate the colour indigo, an idea first showcased in CRÈME's design of the Indigo Chair in 2017. The space will be lit by a single three-metre long Cameron Design House Rokua pendant, a handdrawn cylindrical design based on the ancient coniferous forests of UNESCO site Rokua National Park in Finland and handcrafted in Cameron Design House's St John's Wood studio.

Apple Mood Quasar

Quasar Holland launches Apple Mood at this year's Sleep + Eat. Inspired by the shape of apples and its many symbolic meanings in different cultures (immortality, eternal youth, fertility, love and beauty), the luminaire has been created by Russia-born, Milan-based designer, Malika Novi.

Edition 26 Chelsom

Chelsom exhibits its latest collection, Edition 26 at Sleep + Eat 2018. An eclectic range, it focuses on finishes and materiality, with striking brass tones, textured Venetian coloured glass, varying marble finishes and dazzling LED lamps. Edition 26 is suitable for guest rooms, corridors, bars and restaurants.

Art Deco Baulmann Leuchten

Baulmann Leuchten reveals Art Deco, a new range of tubular LED luminaires featuring decorative glass shades, alongside new LED bathroom mirrors at Sleep + Eat. All of the ranges feature built-in 'chip on board' LED technology, integrated dimming, and on/off control via a small touch sensor located on the top of the light.
